### C Reading Comprehension (8 Marks)

#### 5 Read the following , then answer the questions :

Egypt is a hot country. In July, there are almost 400 hours of sunshine in Cairo, Aswan and Siwa. That long period of sunshine can be good or bad. It is good because it gives us energy. It helps children to get strong and healthy- But it can burn people's skin if they stay out between noon and 3 p.m. In Egypt, we are lucky to have a long period of sunshine all the year round. So, millions of tourists like to visit Egypt, especially, in summer. Moreover, sunshine is good for many crops and fruit to grow, but they can't grow if there isn't enough water.

*Samy :.....*

*Hany : Thanks, I mean that.*

② *Heba : .....?*

*Rania : It's an album.*

### C Reading Comprehension(8 Marks)

⑤ Read the following , then answer the questions :

The ancient Egyptians were some of the first people to study the stars. Glass was made first in Egypt in around 3500 BCE, and people probably used the glass to see the planets better. However, the first telescope was not invented until the sixteenth century. From 330 BCE to 168 CE, many famous scientists visited Egypt to study the earth and space. Eratosthenes, from Greece, measured the size of the earth for the first time after he spent time in Aswan. In the second century, Ptolemy of Alexandria wrote a famous book about how the planets and stars moved in space. In the eleventh century, buildings called observatories were built around Egypt to study the stars. Today, the observatory at Helwan is called The National Research Institute of Astronomy and Geophysics. It is one of the most important observatories in Africa.

a. Answer the following questions:

1. Why did the ancient Egyptians use glass to study the sky ?

♥.....

2. What was invented in the sixteenth century ?

♥.....

3. What was Eratosthenes first to do ?

♥.....
